

108TH CONGRESS
1ST SESSION

H. R. 1191

To provide a grant program for gifted and talented students, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

MARCH 11, 2003

Mr. GALLEGLY introduced the following bill; which was referred to the
Committee on Education and the Workforce

A BILL

To provide a grant program for gifted and talented students,
and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. GRANT PROGRAM FOR GIFTED AND TALENTED**
4 **STUDENTS.**

5 (a) SHORT TITLE.—This Act may be cited as the
6 “Gifted and Talented Students Education Act of 2003”.

7 (b) AMENDMENT.—Subpart 6 of part D of title V of
8 the Elementary and Secondary Education Act of 1965 (20
9 U.S.C. 7253 et seq.) is amended by adding at the end
10 the following:

1 **“Chapter B—Grant Program For Gifted and Talented**
2 **Students**

3 **“SEC. 5467. FINDINGS; ESTABLISHMENT OF PROGRAM; AU-**
4 **THORIZED ACTIVITIES.**

5 “(a) FINDINGS.—Congress makes the following find-
6 ings:

7 “(1) Gifted and talented students give evidence
8 of high performance capability in specific academic
9 fields, or in areas such as intellectual, creative, artis-
10 tic, or leadership capacity, and require services or
11 activities not ordinarily provided by a school in order
12 to fully develop such capabilities. Gifted and talented
13 students are from all cultural, racial, and ethnic
14 backgrounds, and socioeconomic groups. Some such
15 students have disabilities and for some, English is
16 not their first language. Many students from such
17 diverse backgrounds have been historically underrep-
18 resented in gifted education programs.

19 “(2) Elementary school students who are gifted
20 and talented have already mastered 35 to 50 percent
21 of the material covered in a school year in several
22 subject areas before the school year begins.

23 “(3) Elementary school and secondary school
24 teachers have students in their classrooms with a
25 wide variety of traits, characteristics, and needs.
26 Most teachers receive some training to meet the

1 needs of these students, such as students with lim-
2 ited English proficiency, students with disabilities,
3 and students from diverse cultural and racial back-
4 grounds. However, most teachers do not receive
5 training on meeting the needs of students who are
6 gifted and talented.

7 “(4) While the families or communities of some
8 gifted students can provide private programs with
9 appropriately trained staff to supplement public edu-
10 cational offerings, most high-ability students, espe-
11 cially those from inner cities, rural communities, or
12 low-income families, must rely on the services and
13 personnel provided by public schools. Therefore, gift-
14 ed education programs, provided by qualified profes-
15 sionals in the public schools, are needed to provide
16 equal educational opportunities.

17 “(5) Parents and families are essential partners
18 to schools in developing appropriate educational
19 services for gifted and talented students. They need
20 access to information, research, and support regard-
21 ing the characteristics of gifted children and their
22 educational, and social and emotional needs, as well
23 as information on available strategies and resources
24 for education in State and local communities.

1 “(6) There currently is no Federal requirement
2 to identify or serve the Nation’s approximately
3 3,000,000 gifted and talented students.

4 “(7) While some States and local educational
5 agencies allocate resources to educate gifted and tal-
6 ented students, others do not. Additionally, State
7 laws, and State and local funding, identification, and
8 accountability mechanisms vary widely, resulting in
9 a vast disparity of services for this special-needs
10 population.

11 “(8) To meet the future economic and national
12 security needs of the United States, it is important
13 that more students achieve to higher levels, and that
14 highly capable students receive an education that
15 prepares them to perform the most highly innovative
16 and creative work that is necessary to secure our
17 Nation’s position in the world.

18 “(9) The performance of twelfth-grade ad-
19 vanced students in the United States on the Third
20 International Mathematics and Science Study
21 (TIMSS) was among the lowest in the world. In
22 each of 5 physics content areas in the study and
23 in each of 3 mathematics content areas in the study,
24 the performance of physics and advanced mathe-

1 matics students in the United States was among the
2 lowest of the participating countries.

3 “(10) In 1990, fewer than 2 cents out of every
4 \$100 spent on elementary and secondary education
5 in the United States was devoted to providing chal-
6 lenging programming for the Nation’s gifted and tal-
7 ented students.

8 “(b) PROGRAM AUTHORIZED.—

9 “(1) COMPETITIVE GRANTS TO STATES.—If the
10 amount appropriated under section 5468 for a fiscal
11 year is greater than \$7,500,000 but less than
12 \$57,500,000, then the Secretary may use such
13 amount to award grants, on a competitive basis, to
14 State educational agencies to enable the State edu-
15 cational agencies to award grants to local edu-

25 section 5467B, to enable the State educational agen-
